DESIGNED FOR PERFORMANCE.
INFINITY NEXT GENERATION
COATINGS.*

OUR MISSION

To deliver innovative coating solutions that prioritize sustainability, durability, and quality. we aim to transform surfaces and build lasting partnerships through excellence and reliability

OUR VISION

To become a global leader in the power coating industry, setting benchmarks in sustainability and innovation. We strive to deliver excellence, durability, and unmatched

OUR VALUES

Sustainability, culture, trust, and innovation guide everything we do.

Empowering Powder Coating Solutions

SUPERIOR PERFORMANCE AND AESTHETICS

- Advanced powder coating solutions designed to meet diverse industry needs.
- Focus on durability, corrosion resistance, and a flawless finish.
- Eco-friendly formulations offering long-lasting protection.

CUTTING-EDGE TECHNOLOGY & INNOVATION

- Use of innovative powder coating formulations for functional and visual appeal.
- Solutions for Architecture and General industries, Automotive, Furniture & Appliances.
- Expertly engineered to withstand harsh environments while maintaining quality appearance.

COMMITMENT TO CUSTOMER SATISFACTION

- Tailored solutions aligned with specific requirements and industry standards.
- Reliable, cost-effective, and sustainable coating options.
- Continuous improvement focused on enhancing product longevity and success.

PRODUCTS

EPOXY

Epoxy powder coatings are known for their exceptional durability and corrosion resistance, making them ideal for industrial and high-performance applications. These coatings provide a tough, smooth finish that protects surfaces from harsh environments.

KEY BENEFITS

- Corrosion Resistance** : Ideal for metal surfaces, offering excellent protection against rust and degradation.
- Durability** : Provides a hard, scratch-resistant finish that lasts.
- Chemical Resistance** : Withstands exposure to various chemicals, oils, and solvents.
- Smooth Finish** : Delivers a high-quality, even coating with excellent adhesion.

HYBRID

Hybrid powder coatings are designed to deliver superior performance for both interior and exterior applications, combining the benefits of epoxy and polyester. These coatings provide excellent aesthetics and high durability, making them ideal for a wide range of surfaces.

KEY BENEFITS

- Dual-Use** : Suitable for both interior and exterior applications.
- Aesthetic Appeal** : Offers a smooth, attractive finish that enhances the look of any product.
- High Durability** : Resistant to scratches, corrosion, and weathering, ensuring long-lasting performance.
- Versatility** : Perfect for furniture, automotive parts, and industrial equipment.

Epoxy Polyester (Hybrid) our Hybrid powder combines the best of both epoxy and polyester resins, offering superior durability, excellent corrosion and chemical resistance, UV stability, and a smooth, high-quality finish, making it ideal for outdoor, Indoor and industrial coatings.

POLYESTER

Polyester powder coatings are a popular choice for providing durable, high-quality finishes on various surfaces. Known for their excellent weather resistance and vibrant color retention, these coatings are ideal for both indoor and outdoor applications.

KEY BENEFITS

- Superior Durability** : Resistant to scratches, fading, and chipping.
- Weather Resistance** : Withstands harsh outdoor conditions like UV rays and moisture.
- Smooth Finish** : Provides an even, attractive coating with minimal maintenance.
- Eco-Friendly** : Free from solvents and VOCs, making it a sustainable option.

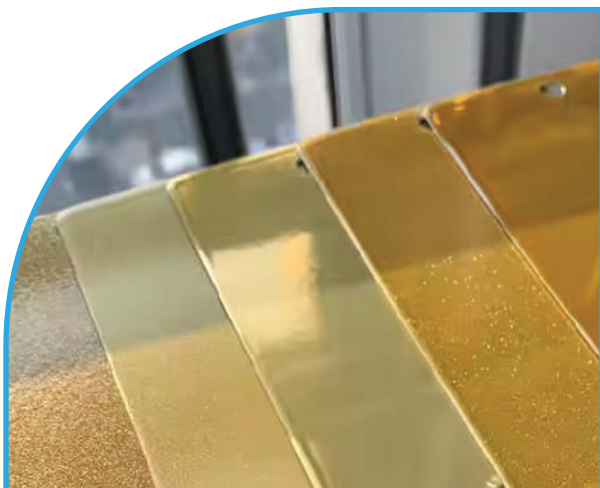

METALLIC FINISH (Bonded Technology)

Bonded metallic powder coatings combine the durability of standard powder coatings with the aesthetic appeal of metallic finishes. These coatings feature finely ground metallic pigments that are bonded to the powder resin, offering a unique and elegant appearance along with superior protection. Bonded technology provides very good coverage in Metallic range powder coating.

KEY BENEFITS

- Enhanced Aesthetic** : Provides a shiny, metallic finish that adds sophistication and depth.
- Smooth Finish** : Delivers a flawless, even coating with a premium appearance.
- Long-Lasting** : The bonded pigments ensure color retention and longevity even in harsh conditions.
